## **We Now Know .. the extent of Joe Biden's corruption.**

- **Article II, Section 4 Impeachment. The President, Vice President and all civil Officers of the United States, shall be removed from Office on Impeachment for, and Conviction of, Treason, Bribery, or other high Crimes and Misdemeanors.**

By [Jenny Beth Martin](#) | Apr 01, 2024

(excerpt)

Since [last September](#), the House Ways and Means, Judiciary, and Oversight Committees have been conducting a joint investigation to determine whether or not Joe Biden should be impeached.

Begin by asking the simple question – what do we know now that we did not know before the House committees' investigation began?

**For starters, we know now** that the Biden family [collected more than \\$20 million from foreign sources](#), just between 2014 and 2019. That period of time included years while Joe Biden served as vice president, and years while he was in private life after leaving public office – though, interestingly but not surprisingly, the money that seemed to gush from foreign sources while Biden was in office slowed to a virtual trickle, by comparison, after he left office.

**We know now** that virtually all of that money came from foreign sources of, shall we say, shady backgrounds – [Russian and Ukrainian and Kazakh oligarchs, and Chinese Communist Party-affiliated Chinese business tycoons.](#)

**Worse, we know now** that, contrary to his [campaign trail protestations](#) that, regarding his family's overseas business transactions, *"I have never discussed with my son, or my brother, or anyone else, anything having to do with their businesses,"* [Joe Biden](#) spoke in person, and dined with, and spoke on the phone, with many of his son's and his brother's business associates.

**We now know** that Joe Biden lied to the American people when, on October 20, 2020, just weeks before the 2020 presidential election, as a candidate for president, when asked a question about whether there was anything unethical or inappropriate about his son's overseas business dealings, he [said](#),

***“My son has not made money in terms of this thing about, what are you talking about, China. I have not had – the only guy who made money from China is this guy [gesturing at Donald Trump]. He’s the only one. Nobody else has made money from China.”***

**We know now** that [the Bidens created more than 20 shell companies](#), most of which were created when Joe Biden was serving as vice president.

**We know now**, thanks to the [sworn testimony of Hunter Biden’s business associate Devon Archer](#), that what those tens of millions of dollars went to purchase, **what Hunter was selling to his foreign clients, was the “Biden brand”** – as The Wall Street Journal Editorial Board put it, [“the Biden family name and the political access it implied.”](#)

Asked by House Judiciary Committee Chairman Jim Jordan, “Can a benefit to your family be a benefit to you?” .. George Washington University Law School Professor Jonathan Turley responded ..

*“Under criminal cases that deal with bribery, extortion, and the Hobbs Act, the courts have said that money going to family members is, in fact, a benefit ... Obviously, the strongest case is if you have a direct payment. But this idea that you can have millions going to a politician’s family and that is not a benefit, I think, is pretty fallacious.”*

If it had not been for the work done by the House Oversight, Judiciary, and Ways and Means Committees in investigating the Bidens and their activities over the last year, we never would have known the extent of Joe Biden’s corruption.

**But now we do.**

*Jenny Beth Martin is Honorary Chairman of Ta Party Patriots Action.*
